Dukuh Krajan, Paringan, Jenangan, Ponorogo, Jawa Timur 63492, Indonesia

I am an Informatics Engineering student with a background in Software Engineering and a strong interest in technology and software development. I enjoy learning new things, solving problems, and turning ideas into practical solutions. I am adaptable, willing to work in a team, and always looking for opportunities to improve my skills and gain new experiences through projects and collaboration.

Education

State Vocational High School 1 Jenangan Ponorogo - **Ponorogo, Indonesia** Jul 2023 - May 2026

High School Diploma in Software Engineering, 87.45/100.00

- Maintained consistent academic performance throughout six semesters of vocational high school.
- Consistently achieved high grades in programming and software development-related subjects.
- Actively participated in practical learning and project-based activities related to software development.
- Completed a six-month internship at PT Universal Big Data (UBIG), gaining hands-on experience in software development and technical documentation.

Universitas Negeri Surabaya - **Surabaya, Indonesia** Aug 2026 - Present

Bachelor of Informatics Engineering

Work Experiences

PT Universal Big Data (UBIG) - **Malang, Indonesia** Jun 2025 - Dec 2025

Programmer & Documentation Intern

PT Universal Big Data (UBIG) is a technology company focused on software development, data solutions, and digital transformation.

- Contributed to the development and improvement of an Odoo-based Islamic boarding school management system.
- Developed and maintained Odoo modules and features based on project requirements.
- Created and maintained technical documentation and system guides using GitBook.
- Participated in Odoo demonstrations and knowledge-sharing sessions at vocational schools, including SMKN 12 Malang and a vocational school in Pasuruan, explaining Odoo and its applications in areas such as accounting.
- Tested system functionality, identified issues, and supported troubleshooting and improvements.
- Collaborated with mentors and team members throughout the development, testing, documentation, and presentation processes.
- Gained hands-on experience with Odoo, Python, PostgreSQL, Git, and software development workflows.

Additional Information

- **Hard Skills** (2026): Programming, software development, web development, database management, version control, and Odoo development.
- **Soft Skills** (2026): Problem solving, teamwork, communication, adaptability, time management, and continuous learning.
- **Projects** (2025): Developed and contributed to software development projects during vocational high school, including application and web-based projects.
- **Interest** (2026): Software development, game development, artificial intelligence, data, and emerging technologies.
